#### Description:

The Green Club organized an impactful **Beach Clean-Up Drive at Dadar Beach**, where a large number of students gathered enthusiastically at 8:00 a.m. to participate in the environmental initiative. Along with students from the NKC Green Club, participants actively engaged in collecting plastic waste, discarded materials, and other pollutants scattered along the shoreline. The activity aimed to raise awareness about marine pollution and the harmful effects of improper waste disposal on coastal ecosystems. Students worked collaboratively in teams, demonstrating responsibility, teamwork, and dedication toward preserving natural spaces. The drive not only contributed to restoring the cleanliness of the beach but also sensitized participants to the importance of reducing plastic use and adopting sustainable waste practices in daily life. Overall, the event witnessed remarkable student participation and successfully promoted community involvement, environmental stewardship, and a shared commitment to protecting coastal environments.
