### Nagindas Khandwala College (Autonomous)

#### POLICY FOR ENVIRONMENT AND ENERGY USAGE

Nagindas Khandwala College recognizes the need to conserve the environment and to manage energy in a systematic way so as to minimize its impact on the environment. The College has an eco-friendly environment and it believes in preservation and maintenance of the environment. This environment and energy policy is applicable to all the stakeholders of the College and to the various activities undertaken by the College.

### **Objectives:**

The objectives of the policy are:

- To assess the energy usage and measure its impact on the environment.
- To install LED bulbs in the campus to save energy.
- · To develop systematic waste management mechanism.
- · To develop rain water harvesting unit.
- To undertake tree plantation drive.
- To take additional measures to continuously improve our energy consumption.
- To ensure the availability of necessary resources to achieve our objectives.
- To monitor and respond to emerging environmental and energy issues.
- To strengthen the employees' and students' environmental knowledge and skills in order to improve their environmental performance at the campus.
- To provide information and training opportunities on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives that contributes to environmental protection

#### Roles

The roles of teachers and students are as follows:

- Plastic usage to be reduced in college campus.
- Communicate the Environment Policy to all faculty members and staff.
- Encourage students and faculty members to follow nature friendly pursuits and sustainable practices.
