Green Club

Organizes

Water Footprint Calculation Report

Date: 7th September 2025

Mode: Online

Number of Participants: 139

Description:

The Green Club of the college organized a water footprint report submission activity to make students aware of their daily water usage. A premade document was provided in which students had to fill the approximate amount of water consumed in their households for activities such as cooking, bathing, handwashing, and other daily needs. By preparing the report, students became more conscious of the high levels of water used in routine tasks. The activity encouraged them to reflect on their habits and consider simple ways to reduce wastage. Overall, the initiative proved to be an eye-opening and effective step in promoting water conservation.

WATER FOOTPRINT REPORT

SAVE WATER SAVE LIFE

WHY SAVE WATER?

- Preserve Our Precious Resource
- Ensure a Sustainable Future
- Protect the Environment

START CONSERVING TODAY!

SIMPLE WAYS TO CONSERVE:

- Fix Leaky Faucets
- Take Shorter Showers
- Collect Rainwater
- Plant Drought-Resistant Plants
