### **Green Club**

Organizes

#### **Poster Making Competition on “Awareness on Waste Management in Residential Areas”**

Date: 6<sup>th</sup> December 2025

Mode: Offline

Number of Participants:145

Description:

The Green Club conducted a Poster Making Competition on the important theme of “Awareness on Waste Management in Residential Areas.” The activity aimed to educate students about proper waste segregation, recycling, and reducing household waste to create cleaner and healthier neighborhoods. Through creative and visually appealing posters, participants highlighted key issues such as plastic pollution, improper disposal, and the need for sustainable waste-handling practices at home. The competition encouraged students to think critically about everyday waste habits and promoted simple, actionable steps like composting, reusing materials, and minimizing single-use products. It also shed light on community-level initiatives and responsible citizen participation in keeping residential areas pollution-free. Overall, the event successfully raised awareness, inspired eco-friendly behavior, and motivated students to take active roles in improving waste management in their surroundings.
