Quiz on Sustainable Development Goals

Date: 12th December 2025

Mode: Online

Number of Participants:125

Description:

The Green Club organized a **Sustainable Development Goals (SDGs) Quiz** to assess and enhance students' awareness of global sustainability challenges and solutions. The quiz was conducted through Google Forms, allowing participants to conveniently respond to a series of thoughtfully designed questions related to the SDGs and their significance in everyday life. The activity aimed not only to evaluate students' existing knowledge but also to serve as an informative learning experience that introduced them to key concepts such as poverty reduction, quality education, environmental protection, and responsible consumption. By participating in the online quiz, students reflected on real-world issues and recognized the importance of individual and collective action in achieving sustainable development. The event encouraged curiosity, digital participation, and self-assessment while promoting awareness about global goals. Overall, the quiz successfully engaged students, broadened their understanding of sustainability, and motivated them to become more conscious and responsible contributors toward a sustainable future.

Brochure

The brochure cover features a vibrant illustration of a sustainable landscape. In the foreground, a winding river flows through lush green fields. In the middle ground, several wind turbines are scattered across rolling hills. The background shows more green hills and a clear sky with a few birds. The overall theme is environmental sustainability and renewable energy.
