

## **Nagindas Khandwala College (Empowered Autonomous)**

### **Green Club**

organizes

### **Water Conversation using WhyWaste App**

Date 15<sup>th</sup> December 2025 till end of Semester

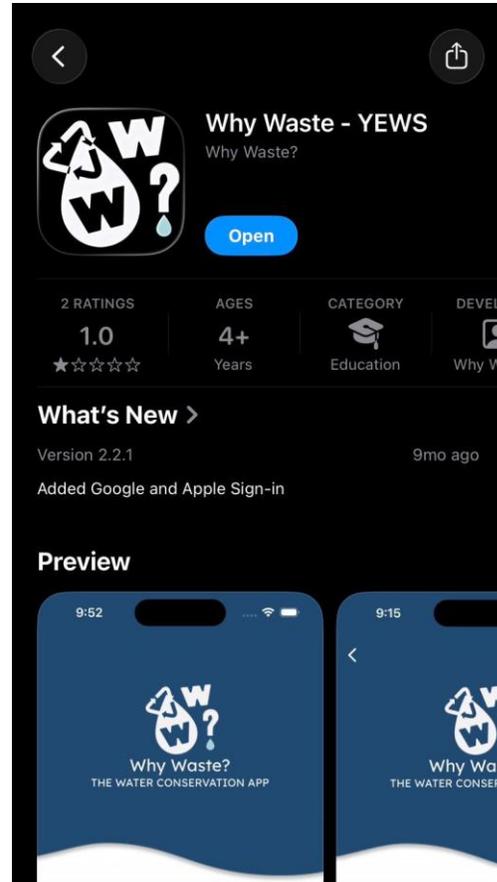

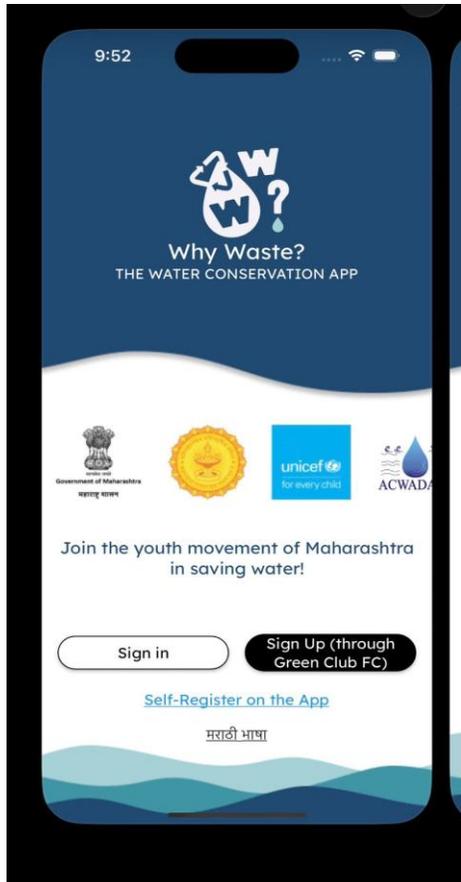

Mode: Online

Number of Participants:131

Description:

The Green Club conducted an innovative awareness activity in which students were encouraged to maintain a daily streak on the WhyWaste application available on the Google Play Store to promote responsible water usage. The initiative aimed to cultivate consistent water-saving habits among students by engaging them in simple daily tasks and reminders provided through the app. By tracking their streaks, participants became more mindful of everyday actions such as turning off taps, reducing water wastage during household chores, and adopting efficient water-use practices. The activity not only introduced students to the role of digital tools in environmental conservation but also motivated them to develop discipline and accountability toward resource management. It encouraged healthy participation and friendly competition as students strived to maintain continuous streaks while reflecting on the importance of water conservation. Overall, the event successfully blended technology with sustainability education, raising awareness about water scarcity and inspiring students to actively contribute to saving water in their daily lives.
